

What's Up at RMH

A monthly
eNewsletter updating
our customers

November 2006

Welcome to the RMH Image Group eNewsletter. Almost everyday we hear the same statement from our customers: "I didn't know you could do that?". So in an effort to keep you better informed, each month we will spotlight a recent unique project we completed at RMH.

Exton Mall install was challenging, but rewarding.

Recently Paoli Hospital became a sponsor at Exton Square Mall. This sponsorship allows Paoli Hospital to put up signage around the mall. The main goal of the recent project is to post signage that is visible and durable in the malls high traffic areas. RMH was responsible for the printing and installation. The signs included: two wall mounted 5 foot by 10 foot panels, three double sided retractable banner stands to be free standing in high traffic mall areas, and three custom built self standing three sided displays. The three sided custom displays had to be durable

enough that children would not damage them or get inside of them, yet portable enough that the mall cleaning crew can move them nightly to wax the floor. These displays will change four times during the year and because of this RMH developed the hardware to be reusable. The installation took place at night so as not to interfere with mall shoppers.

Above: Custom three sided display which is durable and portable.

RMH is looking forward to future printing and installations much like the Exton Mall project. The next time your shopping or visiting the Exton Mall, keep an eye out for these great displays.
